Trevor Thomas –Superintendent, Heath City Schools; Joyce Malainy, Ed.D –Superintendent, C-TEC; Rick Platt, President & CEO – Heath-Newark-Licking County Port Authority; Brian Wilfong, C-TEC Marketing & PR Coordinator - Moderator

room 212

In this session you'll learn how one CTE center (C-TEC) works in conjunction with comprehensive schools and B/I to create a skilled workforce & vibrant economy in Licking County. You'll also begin to develop steps you might take to implement or enhance Career Technical Education and Business and Industry Partnerships in your school or district.

MIDDLE SCHOOL CTE

Alyssa Johnston – C-TEC

room 214

This session will discuss a variety of models demonstrating middle school Career Tech programs. Ranging from Career Connections to Pre-Engineering we will discuss examples used across the state and what this could look like in your district.

AEP INTERNSHIP PROGRAM

Barb Dunlap – American Electric Power

room 243

American Electric Power is one of the area leaders in co-ops and internships. Learn how they are providing Ohio students with opportunities to gain invaluable work experience in high-demand career fields.

IT'S NOT GROUNDHOG DAY - IT'S YOUR FUTURE

Janel Chapman – Principal, North Union High School

room 246

Too many high school students have the Groundhog Day experience. They wake up to an endless cycle of classes, assignments, tests, and graduation requirements, yet they cannot explain how their high school education relates to their future career aspirations. At North Union High School we are not a career technical school, we are a small, traditional, rural school that successfully provides hope and elevated futures for our students and community. Join us to learn about how you can create career opportunities and build hope in your school!

CONSTRUCTION CAREER CONNECTIONS THROUGH CONTRACTOR/CLASSROOM COLLABORATION

Melanie Kitchen – Ohio Contractors Association

room 247

Participants will learn about opportunities for students to connect with Ohio's Heavy Highway Construction Industry. Information for students, parents and instructors will be shared - including how tech prep programs can receive customized resources for their classrooms. Attendees will also meet and hear from industry professionals about job experiences offered to high school students.

SUPPORTING YOUR AREA WITH INDUSTRY LED TRAINING

Troy Shampel – Tolles Career & Technical Center

room 249

This session will highlight the benefits of Industry led training programs. How to create training that moves at the pace of the local industry's needs. This discussion will include, determining the needs of

your local area, considerations when creating relevant programs, the success of the Tolles program, and the benefits of these programs.

BREAKOUT SESSION TWO 11:00-11:45 a.m.

BUSINESS PANEL

Ashley Szabo - Ohio Health; Jeff Lyttle - J.P. Morgan Chase; Brad Forry - Amazon

room 212

Representatives from three vital, growing sectors of our Central Ohio economy will share their perspectives of the workforce needs and other challenges facing the business community.

DUBLIN CITY SCHOOLS & TOLLES PARTNERSHIP: PREPARING STUDENTS FOR A CHANGING WORLD

Connie Strebe- Tolles Career & Technical Center; Kristy Venne – Dublin City Schools

room 214

Join us for this high energy session learning about best practices occurring through a true partnership between K-12 and Career Tech. Education and Business Partners will share this exciting venture and students will invigorate the conversation with their true to life experiences. This will be an interactive session appropriate for ALL guests!

BUILDING A STEM PIPELINE

Meghan Federer, Director of STEM Education, The Works

room 243

When it comes to STEM learning, how can we help youth reach their full potential? Our community features dynamic collaborations between schools, informal education, and the private sector. Providing the architecture for cross-sector learning, these partnerships increase access to STEM-rich learning environments and the development of important skills PreK-Career.

PARTNERING WITH YOU LOCAL ECONOMIC DEVELOPER

Nate Strum – GROW Licking County
room 246

This program will feature data resources on some of the most in-demand career opportunities in Central Ohio as well as highlight how business leaders, educators, and other workforce partners can better engage with their local economic development professionals.

DEVELOPING EFFECTIVE CAREER-TECHNICAL EDUCATION PARTNERSHIPS

Allen Koker & Kim Graves

Job Placement Coordinators –
Pickaway-Ross CTC

room 247

This presentation will focus on the different types of partnerships that career centers and traditional high schools need to develop to best serve their students. Developing and utilizing employers, advisory boards and resource partners will be the main focus of this presentation. We will also discuss how our pre-apprenticeships are developed and implemented for our students at Pickaway-Ross CTC.

HIGHER EDUCATION WORKFORCE INITIATIVES

John Magill - Ohio Department of
Higher Education

room 249

The presentation will provide an overview of the Workforce Data Tools and Ohio Department of Higher Education workforce development initiatives: Workforce Development Revolving Loan Program, RAPIDS and others.

BREAKOUT SESSION THREE 1:00-1:45 p.m.

CYBERSECURITY PANEL

John Harper – Nationwide / Larry
McWherter – Columbus State; Greg
McClelland – South-Western Career

Academy; Mark Bell – Ohio National
Guard / Mike Farrow - Ohio Health;
Dave Gorenflo, Central Region Tech
Prep - Moderator

room 212

As the Ohio Department of Education rolls out and refines its Cyber Security pathway, the interest in this exciting career opportunity continues to grow. Our distinguished panel brings a wealth of practical experience from several valuable perspectives. Learn where the jobs will be in this expanding career field and how to best prepare students for them.

CLOSING THE SKILLS GAP

Liane Makin - Adecco

room 214

Whether you are a business looking for a pipeline of future students to enter the workforce or an educator looking for the tools to upskill those students, this breakout has something for you! Adecco is dedicated to closing the skills gap with our youth. It is our mission to partner with local educators to help students become job ready & connect them to career opportunities. Our breakout session is intended to share our mission, make known the tools and resources we have available and share some of our great success stories.

MANUFACTURING, DIVERSITY, AND GENERATIONS IN THE WORKPLACE

Susan Foltz and Dorinda Byers

MEP Growth Advisors - Ohio State
South Centers

room 243

Our session will highlight the importance of the manufacturing sector and introduce some workforce trends we are seeing affect manufacturing including diversity and generations in the workplace. We will feature hands on activities and present information you can take back to your office and use.

OHIO'S ATTAINMENT GOAL

Brett Visger – Ohio Department of
Higher Education

room 246

Learn how and why Ohio is committed to increasing the education attainment levels of our students. Brett Visger from the Ohio Department of Higher Education will share how the state is working to close the gap that will ensure an adequate supply of knowledgeable, highly-skilled, globally competitive workers.

BUSINESS ADVISORY BOARDS - THE HEART OF BUSINESS / EDUCATION COLLABORATION

Amy Schakat, South-Western City
Schools - Moderator

room 247

Since the inception of our current Career-Technical Education model from the 1970's, Business Advisory Boards have been instrumental in engaging local businesses in the critical task of ensuring that local programs teach the requisite skills and meet the specific workforce needs of the business community. Several area career centers will share how they cultivate and effectively maintain meaningful and productive relationships through their Business Advisory Boards.

GIRLS IN TECHNOLOGY: THE FUTURE IS FEMALE

Paige Preske – J.P. Morgan Chase

room 249

In this session, participants will examine the current state of gender diversity in the technology field. Participants will also discuss tools and resources to start bridging the gender gap.

BREAKOUT SESSION FOUR 2:00-2:45 p.m.

LEARNING THAT WORKS CREDENTIAL & WORK-BASED LEARNING PANEL

Jackie Kuffel - Tolles Career & Technical Center; Shelly Groves - Eastland-Fairfield Career & Technical Schools; Jennifer Miller - Eastland-Fairfield Career & Technical Schools; Jason Vesey - Pickaway-Ross Career & Technical Center; Amy Schakat - South-Western City Schools; Tammy Hall - Delaware Area Career Center; Pegeen Cleary Potts - Columbus City Schools; Michelle Snow - C-TEC of Licking County; Connie Strebe, Tolles & Thom Gamertsfelder, C-TEC - Moderators

room 212

Please join us for this interactive panel discussion of the activities happening in Ohio's Tech Prep Central Region that are giving students high school experience coupled with true workforce style, "Boots on the Ground", experience. Session attendees will learn from regional career-technical education professionals about credentialing that high school students are currently earning and work-based learning initiatives that are placing students in positions to grow their 21st Century Skills while benefiting their industry partners. There will be much information shared and an opportunity for questions and answers. The session will also feature a shared document that delineates all of the tremendous options that will be showcased and the direct contacts that will be leading these innovative endeavors.

THE OHIOMEANSJOBS READINESS SEAL

Kayla Mickens - ODE Career Connections Consultant

room 214

Prepare students to be success bound by exemplifying their aptitude of work-ready professional skills through the OhioMeansJobs-

Readiness Seal. The OhioMeansJobs-Readiness Seal is a formal designation students can earn on their high school diplomas and transcripts indicating they have the personal strengths, strong work ethic and professional experience that businesses and postsecondary education institutions seek. Ohio high school students now can earn recognition by showing they are prepared to contribute to the workplace and their communities. In this session attendees will learn the process in which a student can earn the OhioMeansJobs-Readiness Seal designation. Enjoy an interactive session where you will hear about proven programs connecting industry to the classroom. Jeanne Gogolski, founder and CEO, has led teaching teams training and equipping more than 1,000 teachers in Ohio.

PARTNERING WITH YOU LOCAL ECONOMIC DEVELOPER

Nate Strum - GROW Licking County

room 246

This program will feature data resources on some of the most in-demand career opportunities in Central Ohio as well as highlight how business leaders, educators, and other workforce partners can better engage with their local economic development professionals.

AMAZON'S CAREER CHOICE AND CAREER SKILLS PROGRAM

Brad Forry & Kim Pastura - Amazon

room 246

The presentation will outline Amazon.com's Career Choice and Career Skills programs. The unique Career Choice program funds eligible certificates and two-year degree programs for Amazon associates, and the Career Skills program is available to all Amazon associates in order to develop skills which support associate development and progression.

THE ROAD TO SUCCESSBOUND

Cassie Palsgrove - Ohio Department of Education

room 247

SuccessBound schools research and respond to the economic needs of their communities. SuccessBound businesses collaborate with schools to develop the local workforce. SuccessBound students take active roles in planning their future by exploring career interests early and considering how to align their interests to careers. SuccessBound Communities actively foster collaboration between schools and businesses. Come to this break out session to learn more about the resources available to help grow the conversation in your neighborhood!

STARTING A CYBER PATHWAY

Greg McClelland - South-Western Career Academy

room 249

This session will focus on the problems, and successes of building a Cyber program. Topics will include student recruitment, Lab Structure, District Network admin buy in, advisory committees, and internships. It will discuss multiple options for developing your cyber curriculum. about job experiences offered to high school students.
