

The Embold Solution – Professional Skills Training

Summary of Need

Many high school graduates are missing essential skills that are required to succeed in a professional setting. The most glaring weakness identified in young adults entering the workforce or higher education is a lack of applied skills, such as the ability to work in teams, communicate effectively, and uphold a professional demeanor.

Core Objectives

In an attempt to address the lack of “professional skills” in high school graduates, the Governor’s Office of Workforce Transformation and the Governor’s Executive Workforce Board established the OhioMeansJobs initiative. This initiative, and the corresponding seal will help assure Ohio businesses that their job candidates are fully equipped to enter the workforce productively.

The Embold course supplement provides instruction that directly corresponds to each of the 14 professional skills identified in the *Student OhioMeansJobs Readiness Seal Rubric*.

Reliability | Work Ethic | Punctuality | Discipline | Teamwork/Collaboration | Professionalism | Learning Agility | Critical Thinking/Problem-Solving | Leadership | Creativity/Innovation | Oral and Written Communications | Digital Technology | Global/Intercultural Fluency | Career Management

Completion of the courses within the supplement ensures quality training on each of the identified professional skills and provides administrators with an additional (quantitative) metric to consider when awarding the seal.
